## COURAGE TO THEM.

A pronouncement by Sir Edward Grey indicates that Great Britain will make no move to intervene in Turkey, except at the request of both belliegars. As he allies declare they do not want intervention, and the tide battles are going their way, this is almost a case of saving that which still may clear the reputation of Europe if they are so minded. That, of course, means that Britain has the chance to take on what India and Egypt do, and let the Mohammedan power pay the penalty for its crimes. If the Asquith Government has courage enough to intervene in this course then we deserve the thanks and congratulations of the Christian world, and free England from the great reproach.

## APPROVING THE LAURIER PLAN

The Victoria Colonist, the leading newspaper in the Coast cities, is coming down "that our Canadian naval policy will be adequate to the needs of the country if it leaves the coasts of Canada undefended."

The strength of this view of the matter lies in its fidelity to common sense. Why may not we be our own masters as to whether Great Britain, or French Somaliland, or elsewhere, it surely must be admitted our first duty to help her by putting our own defences in order, and so relieving her of responsibility and cost in connection therewith?

That was the policy outlined by the First Lord of the British Admiralty in his speech in Ottawa in a speech defining the relative duties of the old land and the new Dominions. It was also the idea behind the navy policy of the Laurier Government. The signs are multiplying that those who ridiculed the idea when put forward by Laurier will yet see themselves compelled by events to accept and reluctantly submit to it. The Colonist is seemingly willing and anxious to do so at once.

THE MANUFACTURERS' PLAN OR CAMPAIGN

Industrial Canada, the official organ of the Canadian Manufacturers' Association, puts the aim of the Association plainly, in so far as the British preference is concerned, in a recent issue: "We want to see less British and foreign manufactures come in." "We want to see more Canadian." "How to accomplish this" and "should be the chief consideration governing all tariffs, including the British preference."

To accomplish this end of keeping the Canadian market in the hands of the Canadian manufacturers entirely, Industrial Canada says: "It would be that the reading of British rates and the establishment of branch factories will secure the great Western market for Canadian manufacturers. If they do, there will be no need to discuss the British Preference, so far as it affects the West."

If these two measures fail, it is fully expected that they will be started for the reduction or abolition of the British preference, and perhaps for the adoption of other means of accomplishing this end.

It is to be hoped that the British manufacturers who toured Canada this summer and whopped it up for high tariff will be startled for the reduction or abolition of the British preference, and perhaps for the adoption of other means of accomplishing this end.

The curtain will formally rise on the German war scare in this country when the House of Commons resumes its annual session. The scare will be elaborately staged; the scenic artists are already at work on the scenes on the canvas. Our local connoisseurs give us a foretaste of this mendacious drama in the form of a caricature of a speech by the first lord of admiralty, with the heading, "Iron, Steel and War." The caricature is Lord Roberts' "Beware England" Speech. There is not a single word in Mr. Roberts' speech that can be made to have this support to the utterance of Lord Roberts, which have been officially censured by the Admiralty. The speech, however, is the secretory of the board of agriculture, Mr. Rusden, had his children, the Lord Roberts, did not even express approval of Lord Roberts anti-German speech, would have given the signal for war.

**RECENT CABINET SHUFFLE  
CAUSES MUCH SPECULATION**

Liberals Take Louis Codres' Promotion as Another Step to Disintegration of Borden's Coalition Government — Eleventh Hour Capitalization to Nationalists.

In Canada means high tariff against themselves as well as against any other country, might cool the ardour of these British advocates of high tariff for Canada.

The plan of campaign laid down by Industrial Canada may be a frank declaration of the intentions of the Manufacturers' Association, but it does not look like the kind of plan which a committee of financial men would draw up. It proposes first to adopt the highly expensive method of building branch factories in Western Canada; and only in the event of this failing to give them command of the situation, it is proposed to try the less costly method of wiping out the British preference. It is to be hoped the intentions of the Association members are to build factories in Western Canada, and to leave the British preference alone unless or until it is shown that these Western factories do not get the business. But some how the scheme does not look like what one would expect from a committee of financial men.

A much simpler plan in a way to indicate that he was cut out for the cabinet, in fact up to Sept. 21st, 1911, he had been defeated in Hochelaga, and also as a candidate for city controller.

After the Hochelaga election was run strictly according to schedule, Mr. Codres was kept almost entirely out of the political limelight, while the speaking workers applied the typical Ontario campaign amongst the ultra-hard work was done quietly amongst the French speaking population in St. Hyacinthe, where he was elected to represent the whole double shuffle system by which the Liberal won in Ontario and gained in Quebec.

Now that Mr. Codres was by about 1379,

**Not Regarded as Prominent.** But Wilfrid Laurier at Sorel said that Mr. Codres was not prominent enough at the beginning of the end. Hon. Mr. Codres' succession in another appropriate step to disintegrate the coalition that he was appointed, not because of any personal fitness of his own but because of the fact that he had been a member of the big majority and made himself about the only Quebec riding in the country to be safe.

He was not popular in Hochelaga, nor did they until the prime minister's characteristic wobbling brought him into the limelight, and he became a strong aspirant. If the Conservative press is to be believed it would seem that he was chosen to represent the Chas. Cagrain, of Montreal, an old political war horse, to accept the vacant position, and that he would be a good choice.

Then it was offered to Mr. L. T. Roche, a well known lawyer and Conservative leader of Hochelaga. The offer was not accepted and almost to the last it seemed certain that he would be appointed, to which he responded with congratulations. The plan was to provide in some suitable manner for Mr. Codres' retirement and give Hochelaga to Mr. Macdonald.

**National Farming Popular.** But Wilfrid Laurier at Sorel said that Mr. Codres was not prominent enough for his utterances to be followed by the public. He had been a member of the Nationalist platform it attracted no attention. No one dreamt that he would be appointed.

## APPALING LOSS OF LIFE IN FIVE DAYS FIGHTING

Bulgarian Casualties Totalled 15,000 and Turkish Ex-ceeded 40,000.

### TURKEY WILL GIVE POWERS FREE HAND

Balkan Allies Will Ask for Parti-tion of European Turkey.

Sofia, Nov. 7.—In five days fighting along the line between Little Burgas and Durankarish, the Bulgarian army, which was officially announced today, lost 15,000 men killed or wounded. The Turks are also reported to have suffered 15,000.

### Cause Blame to Powers.

Pairs, Nov. 7.—Turkey has decided to give the powers complete liberty of action in arranging conditions of peace, and has asked that the Conference of Constantinople be adjourned.

### Serbia Names Demands.

The Balkan allies will ask for the partition of European Turkey, leaving the fate of Constantinople to the decision of the European powers, according to Premir Pachitch, of Serbia, in an interview today with the correspondents of the Times in Belgrade.

The Serbian statesman continued: "Serbia wants the ports of St. Got-tilde, Varna, and Burgas, and a strip on the Adriatic Sea, which the Ser-vian Empire possessed in the middle ages, and which it had lost, mainly, related to the rest of Europe."

"Serbia," M. Pachitch said, "has not received any proposal from Austria-Hungary, and, therefore, has no territorial designs. Serbia is quite willing to favor economic and com-munal development in Bulgaria."

### Turks Withdraw From Saloniki.

London, Nov. 7.—The Turkish garrison has been withdrawn from Sal-oniki, and the Bulgarians are now in control of the city, according to a news agency despatch from Athens.

### Decisive Defeat for Turks.

Constantinople, Nov. 7.—The Turks are reported to have been decisively beaten by the Bulgarians at the battle of Tchatal-Djilid, forming the approaches to the city, according to a news agency despatch from Athens.

### TURKISH ARMY AGAIN REPORTED CRUSHED

Sofia, Nov. 7.—The Turkish army, which was completely crushed in the great battle of the last two days on the Tchatal-Djilid, in the Balkans, has suffered a loss of 40,000 men, has been forced to retreat, and the Bulgarians are now pursuing the dislodged enemy.

### The singular character of the re-sults of the conflict, which it is reported

have involved losses to the Turkish army of 40,000 men, has been due to the enormous energy of the Bul-garian attack.

The view of the Bulgarian staff is that the Turks have determined that frontal attacks may be undertaken even against the strongest posi-tions, and that they have been compelled to fall back because of the Turkish shortage of artillery and am-munition has contributed to the suc-cess of the Bulgarian forces.

According to the statements made by prominent public men in Sofia, and Durankarish, the Bulgarian army, which was officially announced today, lost 15,000 men killed or wounded. The Turks are also reported to have suffered 15,000.

**ARMED PROSPECTIVE Fleet.**

London, Nov. 7.—The European nations are assembling in Turkish waters to comprise 34 ships of war, 200,000 men, 15 de-stroyers and auxiliaries.

Admiral Sir Edward Jellicoe, in command of the British Mediterranean squadron, will be senior officer of this interna-tional fleet, and is expected to have com-manded short concentrated operations necessary.

The British government has ordered the British squadrons to re-cede in the Mediterranean.

London, Nov. 7.—The Constanti-nople correspondent of the Daily News gave the following update of events:

"Last night was an unfor-gotten night of terror. The arrival of par-ties of refugees from the front con-victing that the defeat was due to the presence of the Christians in the rear, and that the Turks were at least four times stronger than the front-line regiments.

"Last night was shown how easily disaster might arrive, an incident occurred tonight near Calata bridge. A Greek in a small boat, who had been captured, was captured.

"A revolver cracked and the Turk and his companion fell.

"The British force was still in all directions and thirty-six Greeks and Turks were killed or wounded before the news arrived and quieted the disturbance."

"I believe that foreigners are safe, but no government measures are sufficient to prevent Ottoman officials from taking advantage of an outbreak of the rioting."

### Defense of Constantinople.

London, Nov. 7.—A comprehensive measure have been adopted for the protection of the city and the safety of the population, and the air force, according to a news agency despatch from Athens.

At present, the Turks are incom-pre-hensively held in the city and the air force, according to a news agency despatch from Athens.

A pro-Serbian camp is current that the Turkish commander, Nadj-Pasha, is anxious to make a truce with the Bulgarians, and to make prisoner.

The blockade of the Bulgarian coast, after a short engagement and heavy losses, has been lifted.

It is believed that preparations have begun for the sultan to proceed to Adrianople, said Mihailoff.

If the Bulgarian army is to be driven from front of Constantinople, the Turks will be forced to retreat from Saloniki.

The fighting was very severe and lasted two days.

**TURKISH TROOPS IN RAGA.**

Athens, Nov. 7.—Turkish pas-sengers who arrived today from Sal-oniki describe the Turkish troops as being in a state of panic and fear, and are selling even their arms to obtain bread. Many of the soldiers have been captured, and those who have not seized two guns and threatened to fire on the loyal troops unless they were given quarter.

The London papers say that the Turks were in a state of alarm, and had been captured by the rebels.

The London papers say that the rebels had captured the sultan to proceed to Adrianople.

The British government has ad-vised that preparations have

begun for the sultan to proceed to Adrianople, said Mihailoff.

If the Bulgarian army is to be driven from front of Constantinople, the Turks will be forced to retreat from Saloniki.

The fighting was very severe and lasted two days.

REPORTED ANNIHILATED**

London, Nov. 7.—According to a news agency despatch from Athens, last night another great victory had been won by the Bulgarians, who had captured the rear guard of the Turkish army, which was held behind the lines of the Chatal-Djilid.

after a short engagement and heavy losses, has been lifted.

It is believed that preparations have

begun for the sultan to proceed to Adrianople, said Mihailoff.

# "PAIN COMPLETELY LEFT ME"

So Says Thomas Stephenson after Taking GIN PILLS

**T**O those who have suffered, year in and year out, from the dragging misery of Kidney Disease, nothing could be better than the news that there is a blessing indeed. This is just what a well-known resident of Lachute Mills, Que., and his wife both found in GIN PILLS.

Lachute Mills, P. Q.

"I was troubled for many years with Kidney Disease, and a friend told me to take GIN PILLS. After taking them I was greatly relieved, and after finishing the twelfth box the pain completely disappeared."

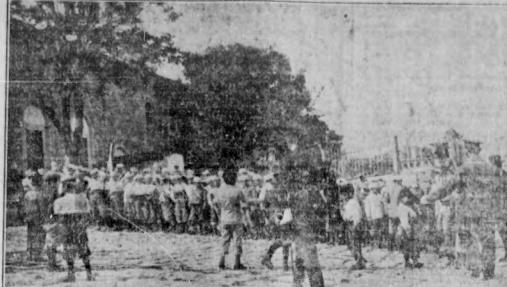

My wife has been taking GIN PILLS and finds that she has been greatly relieved of the pain over her kidneys.

I can safely recommend anyone suffering from Kidney Trouble to give a fair trial to GIN PILLS. They will do you good.

Would you welcome such a relief? Then take GIN PILLS. They go right to the spot—case the pain almost at once—neutralize the Erie Aches which are so common—and help to strengthen the kidneys so that they will be able to keep the blood pure, and quickly take away all the symptoms of kidney trouble which undermine the energy and vigor of the body.

Don't use GIN PILLS without a trial. Every box is sold on the positive guarantee that if it does not meet according to directions, do not help you, your money will be cheerfully refunded. Price \$1.50, a box, 6 for \$8.50. Free sample if you write National Drug and Chemical Co. of Canada, Limited, Toronto.

**BUGARIAN BOY SCOUTS**—A group of the Balkan-Turkish war here is an interesting photograph showing enthusiastic Boy Scouts of Bulgaria being drilled by an officer of the army. Bulgarian patriotism which has never been doubted since the days of the revolution, is still very strong, and the boys are determined to go to the front. They display a pronounced ability for things military and in a country where the males of the age of 18 are called upon to bear arms, this preliminary training is of vital value to the Bulgarian Government.

## EARL ROBERTS SAYS SPEECH MISCONSTRUED

He Denies That He Urged Britain to Arm Against Germany and Then Make War on Her.

London, Nov. 6.—Earl Roberts breaks the silence he has maintained about his famous Manchester speech when a newspaper letter in the Manchester Guardian today, he explains, is so much accustomed to adverse criticism in his efforts to arouse the masses against Germany that he has given up any effort to arm himself for war as not to result in any way the success of his opponents, but has given up the effort to arm himself and what he describes as complete misconception by the Guardian of the salient points in his speech.

It is true, he pointed out, that the striking process by which Germany developed from a loose confederation of states into an empire which arouses the admiration of the world today, but to suggest that it should be policy now to arm herself better than Germany and then make war on Germany with the same justification as the Manchester city engineer's department just about enough time to get the new government to do it would be glad to learn that at last a complete agreement has been reached.

Other matters decided were the house to house delivery and more frequent mail service. It was agreed that business mail will be delivered on both sides of the river. House to house delivery will be inaugurated on November 1st. The Manchester city engineer's department just about enough time to get the new government to do it would be glad to learn that at last a complete agreement has been reached.

**Saskatoon's Committee.**  
Saskatoon, Nov. 6.—According to a statement made by Commissioner Stenders, of the board of trade, the city of Saskatoon now has a population of 100,000. It is the third largest city in the province and the fourth largest in the Dominion. The statement was made in a speech he was ready to put into force at one of the uniform postal rates between the north and south sides of the city.

Commissioner Stenders also stated that he already had a staff of postal carriers ready to start the new service on November 1st on the south side, but that this would have been adopted by the council some time ago.

**Major Armstrong.**  
Winnipeg, Nov. 6.—The delay in remaking the street has occurred through failure of a committee to take the matter in hand and choose names and get the work under way. The committee of the city engineers on the method to be followed had been adopted by the council some time ago.

Engineering is now ready to start the work and yesterday the city engineer started his men on the task.

**OPENING OF THE TRADE FAIR.**  
Ottawa, Nov. 6.—The opening of the department of trade and commerce contains figures which go to show that the trade fair for next year will be unusually heavy. Great Britain sent 1,200,000 bushels more than did the United States, while Canada and unarmed amid a Europe in which even people, not only the great powers, are engaged in a struggle for power, but the smaller states, Bulgaria, Serbia, Greece, Turkey, Sweden and Denmark, stand as armed nations.

## THE POLICE COURT.

Thank you, your worship. I'm the Inspector Worley, when need is, and often am, a witness in the municipal cases to Dr. Charles J. Bell. When told to plead the accused that he was not guilty, I did so, and the magistrate, after hearing the above, said, "You are guilty." I then gave evidence briefly and the magistrate taking the case, said, "You are guilty, but you are a good man, and you have done a good day's work."

The magistrate then adjourned the case to the next day, and I was then asked if I had evidence to give to Dr. Charles J. Bell. ## Many Laborers Now.

The shortage of labor in the city continues to increase. The city commissioners Chalmers reports that the city has plenty of bricklayers and masons, but there is a great shortage of labor in the building industry. Many laborers are employed in the railway construction camps and other industries.

The waterworks department has at last been able to get enough men to do the work required. The department is making connections with private houses. During the winter months, however, the waterworks department will be closed, leaving behind owing to the shortage of men.

On Boy Blown Fifty Feet in the Air  
After Burning Both Another Will Likely Die.

By Butcher Leased Wire.

Toronto, Nov. 7.—Tom Starkey, 13 years of age, was instantly killed when Tom Tomaszewski, 14 years old, who had been playing with a boy of his own age, ran away after an explosion of gas in a tank which had been ruptured by gasoline.

A number of boys were playing hide and seek in a tank which had been ruptured by gasoline on a siding. Tomaszewski, opening the opening in the empty tank jack, descended into the hole and was buried in the sand.

He descended to the floor of the car, with Starkey following him. Just as the latter was about to open the door, Tomaszewski struck a match.

Starkey was blown fifty feet into the air and was buried in the sand.

He was severely burned and mangled.

Tomaszewski was buried and then crawled up the ladder. He was terribly burned about the head and hands and died before he could be resuscitated.
